

A global environmental solution company

# THE OTTO GROUP

We listen, communicate, respond  
& improve... because OTTO cares.

The OTTO Group has been in the business of waste management for over six decades.

Today we remain focused and continue to supply high quality products and services to municipalities as well as to commercial and industrial companies across the Asia Pacific regions. Headquarter in Europe, OTTO has manufacturing facilities in Europe, Eastern Europe, USA and Asia. With her overseas HQ for ASIA in Singapore, she oversees the operations in South-East Asia, Far-East Asia, China, India & Middle-East continents.

OTTO has distinguished herself as one of the few truly global players, providing total and comprehensive waste

management systems. R&D in Europe, all our receptacles are constantly customized to ensure aesthetics meets functionality. Besides the traditional plastic-wheeled bins, OTTO has redeveloped and brought a new angle at perceiving waste receptacles.

In addition to roto-moulded street furnishing receptacles, creative and stylish designs can also be achieved by our fibreglass and stainless steel facilities.

With OTTO, you have the assurance that all your waste receptacles can be easily customised, blending into your environment.

“ THESE ARE OUR  
DO WHAT WE LOVE,  
AND DO IT OFTEN. **BINS.**  
**IF YOU DON'T LIKE SOMETHING, CHANGE IT.**  
**IF YOU DON'T LIKE YOUR BIN, QUIT.**  
IF YOU DON'T HAVE ENOUGH TIME, WE DO!  
IF YOU ARE LOOKING FOR THE BIN OF YOUR LIFE, **STOP;**  
**BINS** SHALL BE WAITING FOR YOU WHEN WE  
START DOING THINGS WE LOVE.  
**STOP OVER ANALYSING, OUR DESIGNS ARE BEAUTIFUL!**  
**OUR IDEAS ARE ARTICULATE!**  
SUSTAINABILITY IS SIMPLE. THE 3 R'S!  
OPEN YOUR MIND AND HEART TO NEW THINGS  
AND PEOPLE. WE ARE UNITED IN OUR PASSION  
ASK AS MANY PEOPLE WHAT THEIR THOUGHTS ARE  
AND SHARE OUR INSPIRING DREAM WITH THEM  
WE ARE CREATIVE THINK OUT OF THE BOX!  
HELPS FIND OURSELVES!  
SOME OPPORTUNITIES ONLY COME ONCE. **SEIZE THEM.**  
**CUSTOMISATION** IS ABOUT THE PEOPLE YOU MEET, AND  
**THE THINGS WE CREATE WITH THEM**  
WE ARE THE LEADERS IN CUSTOMISATION  
**OTTO.** WE LIVE YOUR DREAMS  
SHARE OUR PASSION”

# SUPPLIES

## MATERIALS & FINISHING

- Stainless Steel
- Plastic
- Mild Steel

## FEATURES

- Easy maintenance and handling
- Withstand all types of weather
- Durable

**FLOOR SIGN**  
(L)280 X (H)600

**GULLY FILTER / STRAINER 1728**  
(D)178 X (H)280

**GULLY FILTER / STRAINER 2030**  
(D)203 X (H)305

**Q-POLE**  
(D)300 X (H)900

**SACK HOLDER WITH LID**  
(D)502 X (H)760

**INCENSE BURNER**  
(D)580 X (H)990

**EF FRAME (MILD STEEL)**  
(L)1580 X (D)840 X (H)1080

# ONE FOR ALL

## STAINLESS STEEL

In designing and customising the versatility of our stainless steel range is its greatest strength.

Stainless steel is excellent for both public and private areas. Indoor and outdoor use.

## FIBREGLASS

Glass Fibre - Reinforced Plastic (GFRP) is a fibre reinforced polymer made of plastic matrix reinforced by fine fibres of glass.

FRP is strong and light weight. Ability to customise to any shape and size.

## ROTO-MOULD

Rotational moulding, also known as roto-moulding. This is a process for cracking mostly hollow items, typically plastic.

A heated hollow mould is filled with a charge or shot weight of material, it is then slowly rotated causing the softened material to disperse and stick to the walls of the mould.

## POWDER COATING

Tougher than conventional paint. The powder may be thermoplastic or a thermoset polymer applied electrostatically.

Powder coating can produce thicker coatings than conventional liquid coatings without running or sagging.
